## The Hytek FC Online includes the following benefits:

- Easy to use online software interface that gives you full control of your vehicle fuellings & tank stocks.
- True multiuser interface that can be accessed from any user, anywhere in the world.
- Each Hytek FC Online user requires a unique user login ID & password for secure access.
- Instantly update vehicle tags, data & settings remotely. No additional tag programming device required.
- Supports multiple sites/locations & no limits on vehicle & driver IDs.
- Automated communications between Hytek FC Online software & fuel control system.
- Automated email alerts for low stock levels & stock reorder levels.
- Export data to Excel/Word/Email with just one click.
- Supports all major fuel cards allowing for offsite transactions to be imported into the Hytek FC software.
- Manage your fleet with Service/MOT/Tax Due/Tacho Calibration reports & alerts.
- Monitor your fleet's efficiency with accurate MPG reports.
- Fully maintained, secure & backed up on Hytek's servers.
- Hytek can pre-program the online system with your tank, vehicle & driver information so that when it is installed it's ready to use straight away.
- Full support from Hytek's fuel management team.
